Re: MM Docket No. 94-122
RM-8513
Atlantic and Glenwood, Iowa

Dear Mr. Caton:

Transmitted herewith on behalf of Valley Broadcasting, Inc., petitioner in the above-captioned rulemaking, are an original and four copies of a request for extension of time wherein Valley seeks a 90 day extension of the date by which it must file its minor modification application.

If there are any questions concerning this request, please contact the undersigned directly.

Sincerely,

John M. Pelkey

Request for Extension of Time

Valley Broadcasting, Inc. ("Valley"), petitioner in the above-captioned proceeding, hereby respectfully requests an additional 90 days within which to submit the construction application that is required to be filed pursuant to paragraph 9 of the *Report and Order* issued in the proceeding. In support of this request, Valley states as follows:

By Petition for Rulemaking filed July 28, 1994, Valley requested the Commission to institute a rulemaking proceeding to amend Section 73.202(b) of its rules by deleting Channel 279C from Atlantic, Iowa and allotting Channel 279C to Glenwood, Iowa, as that community's first local aural service. In response, the Commission released a Notice of Proposed Rulemaking in MM Docket 94-122 proposing the requested changes to the Table of Allotments. Valley filed comments in support of the proposal and, on July 25, 1995, the Commission issued a *Report and Order*

adopting the requested rule change. *Amendment of Section 73.202(b), (Atlantic and Glenwood, Iowa)*, 10 FCC Rcd 8074 (1995). The *Report and Order* required that Valley, within 90 days of the effective date of the *Report and Order*, submit to the Commission a minor change application for a construction permit. Because the *Report and Order* became effective September 8, 1995, the minor change application is due on December 8, 1995.

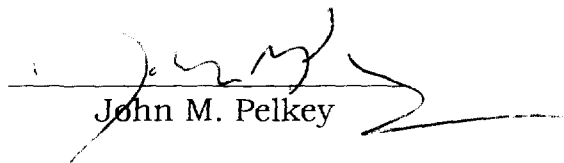

Since the release of the *Report and Order*, Valley has been diligently attempting to secure a site for its new transmission facilities. Valley has investigated several sites for those new facilities and entered into protracted discussions with a tower owner and even had engineering studies performed as to the structural suitability of that tower. Unfortunately, however, an agreement with that tower owner was not achieved. As a result, Valley then began negotiating for the use of a second tower. A structural analysis of that tower is currently being performed by an engineering firm. The expectation is that the firm will deliver its report by the middle of this month. Valley is hopeful that, once that report is delivered, it will be able to enter into an agreement for the use of the tower -- thus permitting the submission of the requisite FCC Form 301.

Accordingly, Valley requests that it be granted an additional period of 90 days for the submission of such application.

Respectfully submitted,

Valley Broadcasting, Inc.
